28	Lake Bellaire @ Steiner Rd access				1	

* Geometric mean of 3 samples.

** All tributaries re-sampled on 7-25-10 showed lower values than those collected on 7-10-10, e.g. 172 colonies/100 ml compared to 548 colonies/100 ml for tributary #3 (Map ID number).

Values in excess of 300 colonies/100 ml are candidates for re-sampling and possibly source-tracking.
