Subject: Encouraging your support of road-end, inland lake access legislation

Three Lakes Association (Torch Lake, Lake Bellaire, and Clam Lake) strongly supports legislation to codify Michigan Supreme Court's Jacob decision, which addresses road-end access to inland lakes. Based on recent conversations with lake association colleagues from Higgins Lake, we understand that such legislation is expected to be sponsored and introduced this week by Senator Mike Kowall.

We urge your support of this legislation, and if you are so inclined, we would applaud your co-sponsorship of this proposed legislation.

Three Lakes Association has about 500 family members and is dedicated to the protection of water quality and environmental education.

Sincerely,

Dean Branson, President
